EXPERIENCE

Front End Developer — Avid Marketing Group May 2023 – Present

- Build and maintain client websites using AngularJS, JavaScript, and CSS, delivering custom front-end solutions across a portfolio of clients with varied requirements
- Improved front-end development workflow by applying component reuse and CSS architecture best practices, reducing implementation time for new client sites
- Developed and maintained Python-based internal tools to support back-end processes and streamline internal workflows
- Conduct code reviews to uphold code quality and consistency standards across the codebases

IT Technician — MJP Systems 2022 – May 2023

- Performed hardware and software installations and provided Level 1 technical support, resolving issues for clients with minimal escalation

LANGUAGES & TECHNOLOGIES

JavaScript / TypeScript · HTML / CSS · React · Next.js · Angular · Python · React Native (Expo) · Node.js · Supabase · MongoDB · MySQL · Git

PROJECTS

Tip Tracker — Next.js · TypeScript · Supabase · Tailwind CSS · shadcn/ui github.com/PandolfoM/tip-tracker

- Built a full-stack multi-role tip management platform for Dunkin' locations, serving managers, market managers, and admins across multiple stores
- Automated payroll preparation by implementing Crunchtime CSV import and Paychex spreadsheet export, eliminating manual data entry for employee tip distribution
- Implemented role-based access control and store-level data isolation using Supabase Auth and PostgreSQL

MJP Hub — Next.js · TypeScript · Supabase · Tailwind CSS · shadcn/ui github.com/PandolfoM/mjp-hub

- Built a full-stack deployment dashboard enabling one-click deploys of React and Next.js applications to Coolify hosting infrastructure
- Implemented user activity event logging, integrated documentation system, and lead generation module backed by Supabase Auth and PostgreSQL
- Designed role-based permission system with admin controls, user management, and audit logging

Tipity — React Native · Expo · TypeScript apps.apple.com/us/app/tipity-tip-calculator/id6444921554 · github.com/PandolfoM/Tipity

- Built and published an iOS tip calculator app to the Apple App Store using React Native (Expo) and TypeScript
- Architected with reusable components, custom hooks, React Context, and utility modules across 150+ commits

EDUCATION

Full Stack Web Developer Certificate — University of Connecticut 2022
